

SIPHELELE MFUSI

Junior Developer & Cloud Computing Professional

Johannesburg, Kenilworth, 2190 | 0603325170 | lindasphelele1@gmail.com

Professional Summary

Results-driven Junior Developer and Cloud Computing professional with hands-on experience in WordPress development, eLearning platform management, AWS, and Azure. Proven ability to build and maintain production web applications, integrate digital tools, and support OHS training delivery through technology. Holds industry-recognised cloud and digital certifications. Eager to contribute to innovative teams and grow into advanced development and cloud roles.

Core Competencies

◆ Web Development	◆ WordPress (PHP, HTML, CSS, JS)	◆ MasterStudy LMS Administration
◆ AWS (CLF-C02 Certified)	◆ Microsoft Azure (AZ-900 Certified)	◆ Cloud: IaaS, SaaS, PaaS
◆ PHP & SQLite Backend	◆ Network Simulation (Cisco)	◆ Git & Version Control
◆ Microsoft Office Suite	◆ eLearning Content Development	◆ Digital Content Creation
◆ Artificial Intelligence Fundamentals	◆ Internet of Things Basics	◆ Team Collaboration

Professional Experience

Junior Developer Intern

Ziyakha Engineering Pty Ltd – Midrand, Johannesburg | December 2025 – June 2026

- Built and maintained the company WordPress website (ziyakhaengineering.co.za) using PHP, HTML, CSS, and JavaScript.
- Managed and populated MasterStudy LMS eLearning platform with HWSETA/QCTO-aligned OHS course content.
- Developed internal staff document management portal using PHP and SQLite.
- Integrated a WordPress live chatbox with email escalation and POPIA consent gate plugin.
- Developed a full BEFAR eLearning course including quizzes, session PDFs, and platform improvements.
- Researched and presented a VR training strategy (WP VR Plugin → Unity 3D Phase 2) to senior management.
- Performed video format conversions (TS to MP4 via FFmpeg) and produced digital training content.
- Created professional business presentations on micro-leadership and core business functions.

Cloud Practitioner Trainee

Digital Youth ICT Academy | May 2025 – October 2025

- Completed AWS and Azure cloud labs covering virtual machines, storage, networking, and security.
- Deployed Azure VMs, configured resource groups, and monitored usage metrics via Azure Monitor.
- Built an AI chatbot prototype using Azure Cognitive Services (LUIS and QnA Maker).
- Designed and simulated LAN/WAN network topologies using Cisco Packet Tracer.

General Worker

Oscarman Mechanic and Engineering | March 2021 – August 2021

- Supported daily workshop operations, demonstrating reliability, attention to detail, and teamwork.

Certifications & Credentials

AWS Certified Cloud Practitioner (CLF-C02)

Digital Youth ICT Academy

July 2025

Microsoft Azure Fundamentals (AZ-900)

Digital Youth ICT Academy

October 2025

Artificial Intelligence Fundamentals (IBM)	<i>Digital Youth ICT Academy</i>	<i>June 2025</i>
Work Readiness Certificate	<i>Digital Youth ICT Academy</i>	<i>October 2025</i>
English for IT1 – Technical Communication & Workplace Writing	<i>Digital Youth ICT Academy</i>	<i>October 2025</i>
English for IT2 – Advanced IT Terminology & Professional Correspondence	<i>Digital Youth ICT Academy</i>	<i>October 2025</i>
Introduction to Internet of Things	<i>Durban University of Technology</i>	<i>September 2020</i>
Introduction to Packet Tracer	<i>Durban University of Technology</i>	<i>November 2020</i>

Education

Certified Digital Practitioner – CDP(SA)

Digital Youth ICT Academy | 2025

Grade 12 (National Senior Certificate)

Umzilikazi Senior Secondary School | November 2019

Technical Projects

Ziyakha Engineering WordPress Website – Built a full custom WordPress website from scratch using PHP, HTML, CSS, and JS with single-page scroll layout, live chat, and POPIA compliance.

MasterStudy LMS – OHS eLearning Platform – Set up and populated a full eLearning platform with 5 OHS courses (Fire Safety, BEFAR, National OHS Officer, and more) aligned to HWSETA/QCTO curriculum.

Internal Staff Document Management Portal – Developed a PHP/SQLite-based portal for internal document management, accessible to staff via the company intranet.

Azure Cloud Lab Simulation – Deployed VMs with custom configurations, set up storage accounts and resource groups, and monitored usage via Azure Monitor.

AI Chatbot Prototype – Built a conversational AI chatbot using Azure Cognitive Services (LUIS and QnA Maker) to demonstrate NLP capabilities.

Cisco Packet Tracer Network Simulation – Designed and simulated LAN/WAN topologies with IP addressing, routing protocols, and security settings.
